

# 'Busy-Person' Circuits

We have a very good supply of sales books in a number of our category offerings. Members who wish to receive a mailing, on demand, consisting of material from one of these categories can send a copy of the form below. Only one of the categories may be selected for each request. Within two weeks of our receipt of your request, we will mail a circuit directly to you.

After processing it, you would send the circuit back to the APS Sales Division with your remittance, including a \$5 charge to help defray the cost of filling these special circuits. This type of circuit is designed to meet the needs of those who have busy schedules that allow only the occasional small window of opportunity for processing a circuit rather than receiving regular circuits. You may use the form shown here or send a note with the information requested on the form.

The categories that may be requested for this special circuit are as follows:
